

MELLON PLANS  
EUROPEAN VISITMost of Cabinet Members to  
Take Late VacationsHoover Held Up by  
Radio and Aviation DealsSecretary Wilbur Coming to  
Pacific Coast

WASHINGTON, July 9. (P.)—President Coolidge and his Cabinet differ on the subject of vacations. While the Chief Executive already is enjoying a holiday schedule in the Adirondacks, the majority of his Cabinet officers either prefer late vacations or have not yet determined on dates for them.

Secretary Mellon expects to call the latter part of next week for a trip to Europe. His itinerary calls for a motor trip through Southern Europe to Rome, where he will visit his daughter, the wife of David E. W. Briscoe, American Vice-Counsel. Treasury officials today described the trip as solely a vacation journey and devoid of other significance.

Secretary Mellon expects to be on vacation in Washington probably until September. He and Mrs. Mellon have arranged to occupy the home of Undersecretary and Mrs. Grew, during the absence of Mrs. Grew and their family at Hancock.

Mr. Hoover—General Work also will be here all summer, taking his vacation at Reading.

## HOOVER DELAYED

Wrestling with the radio situation and with creation of a new unit in his department to care for civil aviation will keep Secretary Hoover in Washington until late summer. He then will take a vacation trip, but for the present must be content with an occasional week-end excursion.

Atty.-Gen. Sargent, who delivered an address yesterday at Pittsburgh, made at the dedication of a soldiers' and sailors' monument, will return here Monday. The latter part of the month Mr. Sargent will go to his home in Louisville, Ky., spending part of his time fishing at his new camp at Reading.

Vacation plans of Secretary of War Davis have not taken shape. Assistant Secretary of War E. L. M. Tamm, on an official army inspection trip to the west coast, will return the 16th inst., and his vacation plans, too, are indefinite. Secretary of Labor Davis is preparing for the annual Moose convention at Chicago, and he will be back in Washington early next week, but there is nothing certain about his vacation.

## WORK DOUBTFUL

Secretary Work will return the latter part of the month from an official war inspection trip of the national parks with his vacation program unarranged.

With an inspection of the S-51 at Brooklyn, N. Y., and a short cruise with the midshipmen's practice squad to the mid-Atlantic, he may leave for his vacation to the Pacific Coast the week of the 16th inst.

A round of New England farms, meetings on the Seaway, Jardine's program upon his return from his western trip about the 18th inst. His vacation tentatively is set for the latter part of August at Southhampton, Long Island, N. Y.

Assistant Secretary Andrews, chief of the prohibition enforcement forces, is now on his way to London to seek closer co-operation with British officials in their fight away from Washington most of the time.

Vice-President Dawes, who for the last few days has been in New England, will begin a ten-day vacation at Woods Hole, Mass., late in July. He plans to return to the summer at his Evanson, (Ill.) home.

Honolulu Line  
Due Today With  
Many Travelers

Arriving a day later than is customary because her sailing schedule was lengthened one day in the Hawaiian Islands for the accommodation of the eighth Hawaiian Excursion party of the Los Angeles Chamber of Commerce, the S.S. City of Los Angeles will dock at Wilmington at 10:30 o'clock this morning with a total passenger list of 428, according to an advice received from Capt. F. J. Rasmussen, manager of the Los Angeles Steamship Company.

Included in the large passenger list of the liner are the majority of the members of the Chamber of Commerce, returning home after a tour of the latter made under the personal supervision of Charles P. Bayar, field secretary of the chamber and a special party of third-cabin tourists from Hawaii, making possible a round trip to Southern California.

With a number of automobiles returning from the islands with their owners, the cargo of the liner comprises mail and parcels post: 12,000 cases of sugar and molasses; 1,600 barrels of tallow; 4125 sacks of pine resin, and the usual shipment of fresh pineapples for the local market.

CAMPAIGN FOR BLIND  
COMMISSION DROPPED

SAFETY FRANCISCO, July 9. (P.)—Mil. Gen. L. Schmitt, executive of the Safety First Initiative Committee, announced last night that the campaign for an initiative measure to create a commission for the blind in this State had been dropped, the stock of funds with which to conduct the campaign was given, as the reason.

INQUIRY ORDERED IN  
ALASKA LIQUOR CASE

WASHINGTON, July 9. (P.)—Federal investigation of charges of liquor selling in Alaska roadhouses was ordered today by Atty.-Gen. Sargent upon the recommendation of the District Attorney of Alaska.

SAFETY FRANCISCO, July 9. (P.)—Mil. Gen. L. Schmitt, executive of the Safety First Initiative Committee, announced last night that the campaign for an initiative measure to create a commission for the blind in this State had been dropped, the stock of funds with which to conduct the campaign was given, as the reason.

DON SWAPS LAND FOR TUNES

How Gen. Vallejo Traded 4000 Acres of Finest Holdings  
so He and Family Might Learn to Play Piano  
Disclosed in Old Contract Just Unearthed

SAN FRANCISCO, July 9. (P.)—How distinguished Spanish gentleman, Gen. Antonio Guadalupe Vallejo, learned to play the piano, was disclosed yesterday by "swapping" 400 acres of his finest California land for music professor, Andrew Hoepner. In return the professor was to teach the general and his family music for a period of years.

What became of the professor, and the title in the land later on, is not revealed. Vallejo at that time owned about 7,000,000 acres in California.

The deal was revealed by an old Spanish contract found in the County of Marin, which Vallejo had recently sold to a German music professor, Andrew Hoepner. In return the professor was to teach the general and his family music for a period of years.

The original deal was struck in 1844.

The land then was a mere pitance to the general who was the wealthiest man in the State. Today the land is worth at least \$1,000,000. On the same today stands the town of Glen Isola.

## Mrs. Harry Payne Whitney Dedicates American Memorial in France

Landing of First American Troops in France is commemorated by a monument, financed and erected by Mrs. Harry Payne Whitney (above with the French general Gouraud) which was dedicated a few days ago at St. Nazaire, France. (P. & A. photo.)

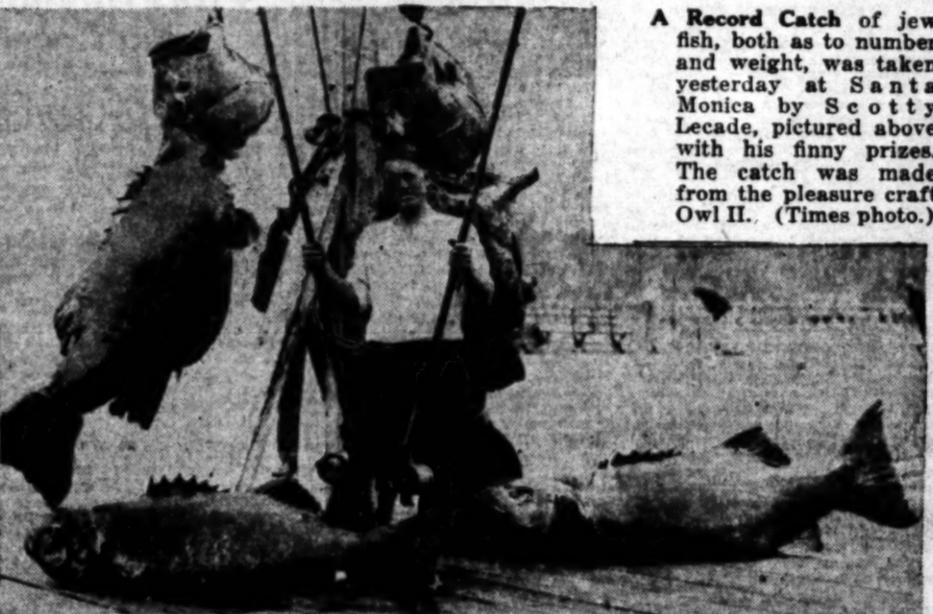

When a Governor Has a Day Off he goes to the beach, if he is of the disposition of Governor Al Smith of New York, pictured above, disporting himself at Sea Gate, N. Y., over the Independence Day week-end. After a duck in the surf the Governor tossed the medicine ball. He needs the exercise, doesn't he? (P. & A. photo.)

The Largest and the Oldest elderberry tree in the world, according to horticultural experts, is the patriarch pictured above. It is located on the golf course of Los Angeles Athletic Club at Santa Monica. The tree is at least 300 years old, and may be 1000 years old, tree surgeons declare.

Broken Faith on the part of an esteemed and mysterious friend is responsible for the recent suicide of Mme. Regine Flory (above,) Paris favorite, who took her life in the office of a prominent theatrical manager in London. This, according to the French paper *Comedia*. (P. & A. photo.)

A Record Catch of jew fish, both as to number and weight, was taken yesterday at Santa Monica by Scotty Lecade, pictured above with his finny prizes. The catch was made from the pleasure craft Owl II. (Times photo.)

In Klondike Days the fierce huskies of the Northland were tamed by men with clubs as pictured above. The photo reproduced above, however, is entirely synthetic. The man is Fred Sauter of New York, and the dog is stuffed. (Herbert Photos, Inc.)

Speaking of Synthetic, Miss Stasia Ledove, dancer, gets a synthetic dip every afternoon on the roof of the Orpheum Theater, where she is appearing. The huge cooling sprinklers double for the restless surf. (Times photo.)

## Pendergrass and Martin Golf for Southern California Junior Crown at Hillcrest

## YOUTHS SCORE RECORD ROUNDS

Maria Clips Par with 70 to Trim Macbeth

Carries Pendergrass to Home Green

Finals Will be Played This Afternoon

BY BILL WISE

John Muir of Rio Hondo defeated Macbeth, Jr., 2 up, after shooting a par-clipping 70, and will meet Lee Pendergrass, also of Rio Hondo, at the 18th hole.

Lee Pendergrass and Macbeth fought through eight holes, and the most sensible and most exciting to young Lee Martin, trailing at the turn, caught Macbeth with a 2 up, and then with a par, when Macbeth slipped into the evening woods carrying home on the eighteenth.

Lee Pendergrass topped Macbeth with a total of 16—more than golf to win many matches.

Lee Pendergrass made a great attempt at Pendergrass and fought hard to the home green before he was a very fine golfer. Pendergrass is a little wild, but has no trouble hitting around in 75, and requires 75 strokes.

Lee Pendergrass, Franklin and I, and in the second flight will play Dan Sunapee, who beat Warren Johnson, 4 and 2. Ernest Johnson, today Ernest has continued his string of third-place victories at the expense of Macbeth, Jr. and 2, and will play Macbeth, who won from Ernest, 1 and 2, for the flight.

The championship clash between Martin and Pendergrass, at first 12 this afternoon, should draw a good gallery, as here are coming champion, and no better in strength, a series of invitational victories, to compete in all State tournaments. Second and third place winners will follow the tournament.

Tuesday's semifinals results as follows:

CHAMPIONSHIP FLIGHT

John Muir, John Muir, 2 and 2. Macbeth, Jr., 2 and 2.

SECOND FLIGHT

Lee Pendergrass, Lee Pendergrass, 2 and 2.

Macbeth, Jr., 2 and 2.

By Sidney Smith  
WILSHIRE OIL UP  
IN VALUE RATING  
NEW YORK, July 8. (Exclusive)—  
The Wilshire Oil Co. has been rated as having  
the highest value rating of all oil companies  
in the country, according to the latest  
report of the Standard Oil Company of California.  
The Wilshire Oil Co. has a value rating of 900,000,  
which is 10 per cent higher than the previous  
rating of 800,000. The Wilshire Oil Co. is  
the only oil company in the country to have  
a value rating of 900,000 or more.

Wilshire Oil Co.  
Value of \$800,000 Shown  
on Properties

Subsidiary Company's Gain  
in Output Stressed  
Report of Operations Covers  
Eleven Months

Property value of the Wilshire Oil Co. has  
increased to \$800,000, it was revealed  
in a report made by Louis J. S. Smith, petroleum engineer. The  
new valuation was placed at \$8,000,000,  
as compared to \$4,000,000, as of June 30.

The increase, according to the report,  
which was prepared for Smith,  
was due largely to the  
improved operating conditions in the  
petroleum industry as a result of  
the recent price of crude oil and  
gas. Particular emphasis was placed  
on the production of gasoline by the  
Standard Petroleum Company,  
a subsidiary of the stock of which  
is owned by the Wilshire Oil Com-

pany.

**BANDIT GAINS**  
A year ago, the Bandit Petroleum  
Company reported a daily  
output of between 600 and 700  
barrels of crude production to ap-  
proximately 1,600 barrels. The No. 1  
well recently drilled to the Bell  
Canyon in with an initial  
output of 1,700 barrels, and then  
increased to between 600 and 1,000

barrels daily. The Bandit  
operations in the Cerrito Extension  
are, according to the report,  
not yet developed to the extent  
that it is devoted to the production  
of natural gas.

Operations in the refining busi-  
ness in the early days of the  
Wilshire Oil Company have fallen below  
the level of previous years, but are  
being maintained. One of the  
main factors of the company's  
present financial status, as empha-

## WOLFGANG GETS NEW SENTENCE

Death Penalty Reimposed on Policeman's Slayer

Three-Year Fight to Stay Noose Comes to End

Governor Will be Asked to Extend Clemency

The three-year court fight to save Isaac Wolfgang, "milk bottle" murderer of Policeman Oliver Denison, from the gallows culminated yesterday with Wolfgang at the losing end when Judge McLucas of Superior Court pronounced the death sentence of death on the convicted man.

Wolfgang was asserted to have shot and killed Denison in November, 1923, after the latter had arrested him on a charge of stealing two bottles of milk.

Wolfgang's appeal from the death verdict was overruled by the Supreme Court and then, conforming to a statute adopted in 1923, the local court reimposed the death sentence without giving the condemned man a trial in court. Ernest Shook, attorney for the convicted man, then staved out a writ of error in the United States Supreme Court on the ground Wolfgang had been deprived of his constitutional rights in that he was not allowed to present for the retrial position of sentence.

The nation's highest court held, however, that the reimposition was merely a formality and did not require that a new trial be given the condemned man. With the ruling of the United States Supreme Court affirming the legality of the California statute, Judge McLucas pronounced the final sentence of death yesterday without Wolfgang being present.

Under the sentence Wolfgang will be hanged in San Quentin Penitentiary September 10, next, between 10 a.m. and 4 p.m.

Attorney Shook, who has conducted the three-year legal fight to save his client from the noose, asked the court to set the date for execution as late as possible under the law, but Judge McLucas stated he had no power to postpone hanging by more than the last falling for September 10.

Spagnoli indicated that as a last resort he will seek clemency for Wolfgang from the Governor and attempt to have the death sentence commuted to life imprisonment.

## Brazilian Snake Authority Here to Study Serums

Dr. Afranio do Amaral of the Instituto de Butantan, São Paulo, Brazil, and Mrs. Amaral, who are touring the United States, are in Los Angeles for a few days.

Dr. Amaral will be in this country for the next two years to study antivenomous serums to combat snake bites. Dr. Amaral replied he will give a series of lectures at the Harvard University. He is a world authority on poisonous snakes.

Dr. and Mrs. Amaral and Dr. G. Edward Morris, president of the Herpetological Society of California were guests of General Matheus Bissot of the Metropolitan Studios.

## Three More of Jail Breakers Again in Jail

Three more of the thirty-one prisoners who broke from the Lincoln Heights Jail on June 22, last, were lodged behind bars here again yesterday after being arrested in Phoenix, their last destination.

The three, who were traced to Phoenix and brought back to Los Angeles by Detective-Lieutenant Martin, are Joe Orozco, 28 years of age; Alfonso Lopez, 20, and Perez, 17.

Thirteen of the thirty-one who participated in the jail-break have been rearrested.

## SHORTRIDGE IS SET FOR FRAY

(Continued from First Page)

has a great statesman and Christian and a great protective tariff man and our President and his policies must be maintained.

## READY FOR FIGHT

"I am back home in California ready to fight every man for my every act as your representative in the United States Senate. I shall stand confidently on my record and I shall not shrink from facing any man or upon the whole of that record."

Senator Shortridge added that he would have considerably more to say at his first formal meeting here Monday at the Women's City Club.

In the meantime, yesterday he was met by W. W. Mincey, president of the Shortridge-for-Senator Club, and John Quinn, former National Commander of the American Legion. For several minutes he was the center of the greeting of enthusiasts, following the lobby of the station a huge crowd was packed to welcome him.

## FLOWERS PRESENTED

Miss Veta L'Homme, the Miss Los Angeles of the Chamber of Commerce, presented him with a huge bouquet. John G. Mott, Ray Youngworth, and Lee Youngworth were members of the Shortridge Club. Marshal Stodd, Collector of Customs, Secretary of the St. Louis Police Commission, Chief Assistant United States Attorney Leland, Collector of Internal Revenue, Welch and others.

The Senator was escorted to a decorated automobile which he entered second to the right of the Chief Shortridge Police. His suite at the Biltmore was the center of a huge throng of friends who crowded in to speak to him during the afternoon and evening.

## ALL BIDS REJECTED FOR CONCRETE BRIDGE

All bids for the Riverside Drive-Dayton avenue bridge were rejected by the Board of Public Works yesterday as excessive and new bids are to be opened by the board on the 15th instant. No bid had been received by the board and the lowest was \$261,561.50 from Salin Bros. The Riverside Drive-Dayton avenue bridge is to be a new concrete structure across the Los Angeles River.

## CITY HEADS GET RISE AS POLICE WAIT

Long Beach Council Votes Pay Increases as Plea of People Stays on Shelf

By a "Times" Staff Correspondent LONG BEACH, July 9. (Exclusive) Although avowedly opposed to an increase in pay for Long Beach policemen and firemen, a proposition now before the City Council is in favor of it. Councillor Arnold today obtained the immediate adoption of a salary ordinance providing large increases for municipal department heads when the council was present to hear the Council for policemen. Arnold said that there was no need for discussion and asked his colleagues to adopt the measure at the first reading.

A petition bearing 21,000 signatures, representing the registered voters of Long Beach, seeking a rise in pay for firemen and policemen, was declared by Arnold Tuesday to be unconstitutional and the best interest of the city. Base pay for police and firemen is \$140 a month.

Included in the pay increase urged by Arnold and authorized by the Council is an 80-cent department superintendent, \$300 to \$350; water department superintendent \$300 to \$350; public service director \$350 to \$400; assistant service director \$300 to \$350; chief engineer \$350 to \$400; chief deputy city attorney \$350 to \$400; deputy attorney \$300 to \$325.

Councillor Callahan expressed a desire for an opportunity to pursue the salary ordinance before its final adoption but the Council voted its adoption without discussion.

## CAPT. BEAN ASSIGNED TO INCREASED DUTIES

Capt. Bean of the detective bureau homicide detail, yesterday was assigned part of the duties performed by former Inspector Chapman, who retired recently. The assignment was made by Chief of Detectives Chapman who gave Bean general charge of all homicide cases and ruled he must be consulted when suspects in felony cases are to be released, or when a charge is to be reduced from felony to misdemeanor.

Validation of the Acquisition and Improvement, Act of 1925 by the Superior Court was viewed by Mr. Bartholomew as of great importance in the carrying out of the plan within the metropolitan area. The act not only expedites proceedings, but permits the opening or widening of a new street within the boundaries of the Traffic Commission.

Mr. Bartholomew, who is in charge of the widening and opening work of the St. Louis Plan Commission, will return to the Missouri city after a two weeks' stay here.

## SPEEDS DEPARTING CHIEF

Salvation Army Plans Farewell to Commander, Transferred to Hawaiian Islands

A farewell service will be tendered to Lieut.-Col. G. R. Boyd and his wife tomorrow night at the Temple Corps Auditorium, 832 West Ninth street. Col. Boyd leaves to take command of the Salvation Army in Honolulu after serving for eight years as divisional commander in Los Angeles.

At the service the many friends of Col. Boyd will express their appreciation of the veteran commander who has been responsible for the army's growth in this city.

Address will be given by Harry M. Haldeman, chairman of the Salvation Army auxiliary board; W. H. Holland, superintendent of charities; Mrs. Roy Jones, chairman of the Salvation Army women's nursery committee; Charles Toll of the advisory board and Lieut. W. H. Goodeing.

Commander Boyd will deliver his farewell message to the officers and soldiers of the army in Los Angeles.

Since he first started as divisional commander here, Col. Boyd has been responsible for several building projects and the rapid growth of the Los Angeles army.

Col. C. R. Boyd.

1926.—[PART II.]

SUNDAY MORNING.

# Go To Church Sunday

## Why You Should Go to Church

By Rev. Stewart P. MacLennan—First Presbyterian Church of Hollywood

First, to come under the influence of the emancipating gospel of the Lord Jesus Christ. Second, to receive the inspiration and power to carry the same gospel to those who will not come to get it.

Third, Church attendance makes possible the wonders, the pathos and the dignity of social worship. Most men labor within a very narrow circle of interest and enterprise. Think then of the wide horizon of corporate worship. Consider what the company of fellow aspirants can mean in mental and spiritual enlargement.

Fourth, Controversies that have confused, vexed and irritated have been many times settled in the light of the broad and plain moralities of the gospel.

Fifth, Exaggeration of views have been checked by the thought of the manifold variety of Christian experiences. And last, but by no means least among the benefits of church attendance is, that weary, worn, and defeated men and women have come into the church to leave refreshed and strengthened.

PENBROKE IS BROKE  
A financial note from England sets up  
that the Earl of Pembroke is reduced to the  
last syllable of his title. They explain that  
he has liabilities of \$315,000 and no assets.  
At that, he must have been some cruiser.

FAST CHILDREN  
An evolutionist says that babies of the  
future will be born knowing how to drive a  
car. Perhaps they will ultimately have  
gasoline instead of blood in their veins  
and will be able to fly under their own  
power.

NOT SPARING THE ROD  
German Socialists demanded the abolition  
of corporal punishment in the schools  
of their country, but the measure was de-  
feated. The switch will continue to be  
used upon all recalcitrant pupils. The  
Germans are serious in their respect for  
the ancient adage: Spare the rod and spoil  
the child.

HAMLET OF ELSINORE  
There is no actual proof that any such  
person as Hamlet really existed, but never-  
theless the officials of Elsinore in Denmark  
are reported as being about to honor their  
fellow-citizen with a memorial. They are  
assuming that he was born in Elsinore 1000  
years ago and will thus feature his anni-  
versary. The world knows mainly of Ham-  
let through the genius of Shakespeare. The  
hard plodder has plodded from all conceivable  
sources and the tale of Hamlet is likely  
to be a composite one.

READERS OF BOOKS  
There are still more than 50,000,000  
living Americans who are out of access to  
the public libraries. The rural library ser-  
vice is being extended, however, and in time  
most of these may find themselves in touch  
with the season's best sellers. The civic  
library is in more extended and better use  
in this country than in most other lands.  
Somebody in almost every family has the  
library habit and it is not developed for  
the purpose of keeping up with modern facts,  
either. Most of the volumes taken  
out are really worth while.

UNDERGROUND HOME  
The catacombs cannot be diverted for  
underground traffic and now Rome is to  
have a real subway. They are going to  
bore holes under the ancient capital for  
the use of electric cars. There will be  
twenty-two miles of this new subway as  
against some 600 miles of galleries in the  
catacombs—many miles of which have not  
been explored within the present genera-  
tion. Romans bumped off by the cars may  
be taken into the next trench and buried  
in the catacombs, where the bones of 8,000,  
000 ancient Romans already repose.

PAINTED TEACHERS  
Two years ago most of the school  
boards in the State of Kansas were ruling  
against the selection or appointment of  
school-teachers who bobbed their hair or  
used rouge on their faces. But it seems  
that times have changed. The University  
of Kansas supplies many of the teachers  
for country schools all over the State and  
it is significant that in the last season  
there has not been a single demand for an  
unbobbed or unshaded instructor. This  
is quite a change of front for the Sun-  
flower State. The influence of Hollywood  
is unescapable.

ALL MEN ARE LIARS  
Literary women have been conducting  
a symposium over the prevarications of  
men. Their best judgment is that men are  
more liable to lie about their golf game  
than anything else. They say that a man  
whose word is absolute honor in a commer-  
cial transaction will dress up his work on  
the links with the vividness of a Munch-  
ausen. They will lie about their winnings at  
poker, the speed of the car and the sta-  
tions they get on the radio, but will be  
honest and decent in business. They tell  
of their romances and boast of the Romeo  
they used to be, but the women find more  
satisfaction in recording the fact that the  
man who boasts over the taking of a cold  
bath every morning usually contents him-  
self with moistening his hands. Anyhow,  
all men are liars, although few of them are  
dangerously so.

THACKING DINOSAURS  
Arizona's savants have taken to the  
trail. Tracks, more amazing than those  
Robinson Crusoe found, have been discovered  
in the sands of time. They were made  
when the sand was tide-washed by some  
vanished sea—huge, three-toed tracks, like  
those found wherever dinosaurs roved.  
Time turned the sand to stone, preserving  
the tracks. There were many kinds of  
dinosaurs. Some walked on four feet,  
others on two feet. Some were mountains  
of flesh, others not much larger than pine-  
apples. The Thunder dinosaur was a block  
long, but its brain was no bigger than an  
Idaho potato. It didn't know enough to  
keep from becoming extinct. Nor did it  
know enough to bring forth live-born baby  
dinosaurs. It laid eggs. The savants are  
wondering how the Thunder dinosaur  
hatched its eggs.

THE THREE FANATICISMS  
"Southern California has three fanaticisms—real estate, health and schools," was  
the way an easterner appraised us after  
looking us over for a few days.  
However, he had discovered our enthusiasm  
red-handed. We are fanatics over  
real estate. But, then, when every lot has  
a view and you can have your choice of  
the mountains or the sea there is something  
valid to make fanatics.

When the soil is deep enough for the  
feet of the mighty sequoias and high  
enough to make your heart pump with snap  
so low enough to accommodate itself to  
every wheeze from the East, who would  
not grow excited?

If it is not a little patch of heaven it is  
so close to it that most folks come here to  
postpone the journey to the so-called  
"better land."

Then it is right about it again: health  
is our hobby. That was what started it.  
Folks first came because they had something  
the matter with them. Now they  
come to keep from getting anything the  
matter with them. Incidentally they have  
a good time while they are at it.

Sunshine makes optimists. Boosting is  
indigenous to the soil and skies. It is  
easier to believe in God and human nature  
on a bright day. And, since every day is a  
fine day, a wholesome outlook on life is  
chronic.

Naturally to the folks back in Iowa and  
Illinois it seems lying. In California you  
have to exaggerate to tell the truth.

Another thing follows: the sunshine of  
California helps to put the "light" into "en-  
lightenment." We are faddists about our  
schools.

Continuous sunshine enables our chil-  
dren to play in the open all the year  
through. Fruits and vegetables ripen every  
month and make our children grow.  
How can they help being a rising genera-  
tion?

Their minds seem to develop along with  
their bodies. They have enough blood for  
their heads as well as for their stomachs.  
They can think and eat at the same time.  
As a result we have one of the largest  
universities of the country to accommodate  
the aspirations of our youth. And even  
our high schools have evolved into one-  
tenth of all the junior colleges of the land.

That an eastern editor could mistake  
our public schools for colleges is not sur-  
prising. We have to have pretentious  
plants to house the ambitions of even the  
smallest boys and girls.

So it can plainly be seen that we are  
not ashamed of our fanaticisms. Nor are  
we ashamed of our biggest ones, our tall-  
est mountains, our most magnificent distan-  
tances, our biggest fish. Reducing is not  
a fad of either our men or mountains.

We are disgustingly healthy. Nor are  
we squeamish about it. That New York  
and Paris live indoors and affect bean-pole  
figures does not interest us.

Why should our athletes count their cal-  
ories so that dyspeptic easterners may lick  
them in discus throws, shot-puts, 100-yard  
dashes, tennis or football.

Nor will we shrink our tunas and fish  
stories to fit the weakened catches of other  
parts.

And if it be a fanaticism to conduct night  
schools all over the world with motion  
pictures, to harvest the debating laurels,  
to attract the authors and artists of the  
country and house their works—if all these  
fanaticisms are guilty! Guilty!

We even humbly confess that we are  
maniacal in our enthusiasm. Fact in fun!  
Work is play! Every day is a holiday.

DOLLAR PATRIOTS

Though several thousand persons gave  
their time and others contributed money  
to make the Pageant of Liberty at the Col-  
seum Independence Day a success, though  
the net proceeds were to be devoted to the  
relief of disabled war veterans, the Los  
Angeles musicians' union declined officially  
to be patriotic without being paid for it.  
Asked to send a band, the union replied that  
one could be hired at \$5 for each man  
for the first hour and \$2 an hour thereafter  
and that, if such a band were hired, the  
union would graciously permit union men  
to play with other bands free; but that, if  
such a band was not hired, union men  
participating would be fined \$100 each and  
have their insurance canceled, and that was  
the case.

That is that, indeed, and has been on  
many other occasions. In fact, whenever  
the musicians' union gets an opportunity  
of making this kind of a display of itself  
it does it, whether at the National Orange  
Show, Tournament of Roses or whatever.

Despite the union's fist, some union musi-  
cians played in some of the six bands that  
gave their services Independence Day; and  
the best thing that could happen to music  
in Los Angeles would be for the union now  
to attempt to enforce the penalty. It may  
be said the absence of the union bands was  
not particularly noticed at the pageant.

There was plenty of other music, just as  
there has been plenty of other music sent  
out on the other from The Times' radio  
station since the musicians' union declared  
a boycott of it some months ago, threatening  
dire penalties. These threats have had no  
noticeable effect either on the quality  
or the quantity of the programs.

But it is the spirit of the thing that is  
objectionable. Such tactics may be accepted  
as a matter of course in cities where  
unions dominate, but in the freer air of  
Los Angeles they are intolerable. A few  
more such exhibitions of dollar patriotism  
by union officials probably will lead to a  
revolt from within.

OVER THREE TO ONE  
Wet majorities doubtless exist in some  
of our big cities, particularly New York  
and Chicago, but there is every indication  
that the sentiment in nearly all the smaller  
cities and towns 's this country is over-  
whelmingly in favor of prohibition and that  
their citizens do not desire any modification  
of the law that has established what  
they consider an acceptable state of affairs,  
despite all efforts on the part of unth-  
ing people to nullify or modify that law.

Strong proof of this fact is seen in the  
registered expression of the country editors.  
Most of them favor the Volstead Act as  
it stands and will stand for no tinkering  
with it. The National Editorial As-  
sociation, composed chiefly of editors and  
publishers of journals printed and circu-  
lated in places of small population, voted  
on the question of prohibition recently in  
this city. More than three to one were for  
the strict enforcement of the Volstead Act.

This remarkable preponderance of senti-  
ment for unmodified prohibition should  
prove to those sincere and sober city people  
who have come to regard the defiance  
of the law in their communities as repre-  
sentative of the views of the people of the

## LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

From an Editor

LOS ANGELES, July 7.—[To the  
Editor of The Times:] I am  
thankful that the good Lord per-  
mitted me to live long enough to  
visit California.

I am grateful that the N.E.A.  
and California boosters made it  
possible.

I am more interested than ever  
in heaven, for I am sure that is  
the only place that can outdo Calif-  
ornia. MARION BRUCE, Rohns (Iowa) Arrow.

Leave Them to Oblivion

HOLLYWOOD, July 7.—[To the  
Editor of The Times:] I wish to  
register my protest against the publication  
in The Times of an article describing Clara Phillips' birthday party at San Quentin as  
"a character write a story for us on  
the beauty shop." The character write a story  
in ten seconds or a minute. Sheriff will provide  
the character with a gun for murder and let the  
eleven-hour-old 5-year-old girl. She may be  
the movies and that is the mate of the  
woman-hater. I would like to see the  
woman-hater's face and life the beauty shop.

But the man who has the  
woman-hater's face and life the  
beauty shop would be the plague. He  
professed friendship of the woman-hater,  
even though the only inhabitants of the  
university upon which they have  
lived for the last year are the  
woman-hater and the character write a story.  
She has no use for me whatever he  
does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though  
she is the only inhabitant of the  
university upon which they have  
lived for the last year. She has no use for me  
whatever he does. She does not know what  
would the plague. He professed  
friendship of the woman-hater, even though

FIVE DOLLARS CASH PRIZES to the person who sends "Noni," care to Los Angeles Daily Times, the best slogan for "Noni" or for before Saturday, July 17. In case of a tie, prizes of equal value will be given to the two.

"What's wrong with the world?" we asked a popular Los Angeles manufacturer. "We're living too fast and too soon!" was his clever response—which, after all, is food for the serious thought of parents.

San-a-Tog goat milk is the kind the new "taste" "posty" Calif. Food and Milk Company, 7200 Bunker Hill, Chorrell Butter Store, 190 W. 7th. For details, see page 510.

Recipes for cheese drop biscuits and ribbon cake are on back of Magazine Section.

"While ye abide in the flesh, let that food be the best! Think more of quality—thoroughly ripe fruit—fresh, crisp vegetables—carefully selected meat, in moderation, if you like.

Unite most aids to soap in hard water. Rain Water Crystals may be used in the water when you wash your face and hands, without injury to the most delicate of skins. It is just like bathing in rainwater. It is not soap—it softens the water.

Jaletine made with pure orange juice sweetened to taste with a liberal addition of blanched almonds, makes a pleasing healthful dessert.

## BURIAL SET FOR WIFE OF REPORTER

Funeral of Mrs. te Groot Will be Conducted Next Monday Afternoon

Funeral services for Mrs. Helen B. te Groot, wife of W. P. te Groot, a well-known Los Angeles newspaper man, will be conducted at 3 o'clock next Monday afternoon at the Highland Park Christian Church, Avenue 56 and Monte Vista street, Rev. A. L. Hill, pastor of the church, will officiate. Burial will be at Grand View Cemetery, near Glendale.

Mrs. te Groot was 27 years of age, and died on Thursday night at 1000 N. Highland, 2700 Adams street, after a long illness. She leaves her husband and a 10-month-old daughter, Patricia Ann. Other relatives include Mrs. te Groot's mother, Mrs. Clara Fisher, an aunt, Mrs. Blanche Fisher, Mrs. Elizabeth and Virginia Fisher, sisters, and Robert Fisher, a brother.

Mrs. Fisher previous to her marriage was for several years secretary in the office of the Board of Public Works.

Pierce Brothers are in charge of the funeral arrangements.

### SHRIMP NEWBURG

Melt a tablespoonful of butter in the chafing dish, add the well-drained contents of two cans of shrimp, a little salt, paprika, and one-fourth of a cupful of sherry.

Cover and cook five minutes. Beat the yolks of four eggs with a little water and add to the hot shrimp until the eggs begin to thicken. Strain through a sieve; when cool, freeze.

Take one-half cupful of raspberry syrup, one-half cupful of strawberry syrup, one-half cupful of raspberry syrup.

Put on stove—when it begins to boil add a scant teaspoonful of cornstarch dissolved in a little water. Turn from fire and pull cool until the eggs begin to thicken. Strain through a sieve; when cool, freeze.

Peel fresh shrimp and place on ice, then pour the above syrup and peach over the ice cream.

The same in the novel.

In the section I have read I have found but one condition of a woman-hater and that was in "Victory," in which, just as hisropic hawks pestered himself one day, the woman-hater tries to kill him, for he means an effort at better life in the eyes of the world. But this is a woman-hater, but a villain.

This woman-hating hawks non-farming or non-jumping is not likely to be found.

Just as I said a man who was set up in it and recently established, it is likely about him like a bungalow in a cyclone.

CHERRY CONSERVE

The preserves of one cherry, five of cherries, one and one-half of medium raisins, four

pears, slice and pit the cherries.

Boil the juice of the oranges and lemon with the cherries, all

and set aside over heat but slowly and steadily for hours, or until thick and pour around.

GREEN CORN SOUP

One cup of sweet corn, one pint of water, one and one-half cups of beans, one cup of salt, one cup of oil, one cup of flour, one tablespoonful of butter.

Cover the corn and boil thirty minutes.

To one pint of corn add the beans and set aside over heat but slowly and steadily for hours, or until thick and pour around.

Cover the corn and boil thirty minutes.

To one pint of corn add the beans and set aside over heat but slowly and steadily for hours, or until thick and pour around.

LEGION SHOW POSTPONED

Because of improvement work being done on Washington Boulevard, and in order to acquire additional attractions, the industrial show and water carnival of Culver City Post of the American Legion, scheduled for July 14th, has been postponed until September.

### MOTHERS AND THEIR CHILDREN

Mother Doesn't Always Know  
One Mother Says:

When one of my children asks an intelligent question which I cannot answer, I never pretend that I know. If possible, I stop what I am doing and help look it up. This means that we are learning together and the child is being taught to study. It also means that he will be spared the shock that comes to every child when he discovers that mother doesn't know everything.

DOES SHE KNOW?

Legs we were given to walk upon; a frigid nose, a cold, aching heart, so I yawned and drooped eyes and slept some hours away. And when I was up again, my nieces were wavy, "Another shot to pieces, another blink!" WALT MARX

## SUIT INVOLVES WATER RIGHTS

Ranchers Challenge Beach City's Use of Supply

Fear Underground Reservoir Will be Pumped Dry

Priority Claim to Source Denied by Santa Monica

Rights of the city of Santa Monica to water lying in a subterranean basin between the beach city and the Santa Monica Mountains were attacked yesterday in a suit which went on trial yesterday before Judge Roche of San Francisco, sitting in Judge Mandel's department of the local Superior Court.

Frederick W. Pew and several other ranchers of the district in which the water is produced appear as plaintiffs in the action, which asks that the city be enjoined from maintaining several artesian wells and a pumping station adjacent to the property of the plaintiffs.

FEAR WATER DEPLETION

The suit recited that the plaintiffs have been drawing on the underground reservoir for more than twenty years for irrigation and domestic purposes, and it was charged that if the reservoir were pumped dry the land of the plaintiffs would be rendered useless for irrigation purposes.

In its answer to the suit the city stated that it in no way lay claim only under the property of the plaintiffs, but under the entire city of Santa Monica. It was stated by the city that it had drawn on the same reservoir for more than thirty years for water with which to supply its inhabitants and industries, and the city denied the plaintiffs had a right to priority to the water. It was also declared by the city that there is sufficient water in the subterranean basin to supply the future needs of the plaintiffs and the city, no matter how densely populated the region may become in the future.

ASSERTS PRIORITY RIGHT

The plaintiffs based their plea for an injunction on an asserted right of priority and on the theory that the water produced by the city's pumping station is not being used for the purpose which it emerges from the ground or by the owners of the property.

The case, which was said by attorneys to be one of the most important in the local court, probably will not be concluded until the latter part of next week.

HUSBAND BRANDON AS WRECKER OF HOMES

Abe Richman was nominated yesterday as an all-around general home-wrecker, by his wife, Bessie Richmond. First, Mrs. Richman told the court that she and her husband tore down the shades and smashed the furniture in their home. Then she said he went out and spent \$300 for clothes for another woman, which caused a general wreck of the marital furniture. Judge Gates granted Mrs. Richman a decree of divorce.

CRAIL ADDRESSES VETERANS

Joe Crail, candidate for the Republican Congressional nomination in the tenth congressional district, the members of Henry W. Osborne, Unit No. 102, United Veterans of the Republic, at Markham Hall, Soldiers' Home, Sawtelle, last night. Department Commander Ray of the United Veterans was a guest at the meeting.

WIDENING CONSIDERED

The City Council has under consideration the widening of the north roadway of Santa Monica Boulevard from Beverly Hills to Veteran avenue to a uniform width of eighty-three feet.

MAID O'CLOVER IS Good BUTTER

THE cream comes from cows pastured on green mountain meadows and is churned by experts.

IT WOULD BE DANGEROUS

No. R. only as qualified, experienced, regular physician could you get into any institution to practice any treatment you think would be good for cancer, or any other condition.

The remedy, it seems to me, is simple in your case.

Eat more, or decrease your activities somewhat. I suggest that you learn to like a fairly good breakfast. You can do it. Gradually work up a good breakfast. Eat more, try to increase your calories, all the time. Have a big cupful of oatmeal or other cereal (about 150 C.) with a glass of milk (100 C.) some cream for your oatmeal, or some top milk (crème fraîche), or one cup of cold, one-half teaspoonful 100 C. thin cream, 18 per cent, (ordinary cream) is less than two ounces to the 100 C. some whole-wheat bread and butter, toasted. If like, one slice of bread, one-half inch wide, 100 C. one level tablespoonful of butter, 100 C. some fruit (one orange, 100 C.; one-half grapefruit, 100 C.; one apple, 100 C.) Whether you would need eggs or other protein depends upon the amount of protein you have in other meals.

But you can see that by eating some breakfast you can add to your calories 400 to 500, or more, every day. You might have a glass of milk before going to bed, too. That's another 150 C.

The fact that you are well indicates that your underweight is simply due to undereating or overeating, or both the needs. The little body which is so much demands for overweight reduction, also contains a fair-sized list of foods and their caloric values, and directions for gaining. If you want it, please send me a stamped, self-addressed envelope and 10 cents in stamps with your request. (Allow at least two weeks for my receipt.)

DOES SHE KNOW?

Legs we were given to walk upon; a frigid nose, a cold, aching heart, so I yawned and drooped eyes and slept some hours away. And when I was up again, my nieces were wavy, "Another shot to pieces, another blink!" WALT MARX

## WRITER SPEAKS IN CHILDREN'S CAUSE

Ranchers Challenge Beach City's Use of Supply

Fear Underground Reservoir Will be Pumped Dry

Priority Claim to Source Denied by Santa Monica

Rights of the city of Santa Monica to water lying in a subterranean basin between the beach city and the Santa Monica Mountains were attacked yesterday in a suit which went on trial yesterday before Judge Roche of San Francisco, sitting in Judge Mandel's department of the local Superior Court.

Frederick W. Pew and several other ranchers of the district in which the water is produced appear as plaintiffs in the action, which asks that the city be enjoined from maintaining several artesian wells and a pumping station adjacent to the property of the plaintiffs.

FEAR WATER DEPLETION

The suit recited that the plaintiffs have been drawing on the underground reservoir for more than twenty years for irrigation and domestic purposes, and it was charged that if the reservoir were pumped dry the land of the plaintiffs would be rendered useless for irrigation purposes.

In its answer to the suit the city stated that it in no way lay claim only under the property of the plaintiffs, but under the entire city of Santa Monica. It was stated by the city that it had drawn on the same reservoir for more than thirty years for water with which to supply its inhabitants and industries, and the city denied the plaintiffs had a right to priority to the water. It was also declared by the city that there is sufficient water in the subterranean basin to supply the future needs of the plaintiffs and the city, no matter how densely populated the region may become in the future.

ASSERTS PRIORITY RIGHT

The plaintiffs based their plea for an injunction on an asserted right of priority and on the theory that the water produced by the city's pumping station is not being used for the purpose which it emerges from the ground or by the owners of the property.

The case, which was said by attorneys to be one of the most important in the local court, probably will not be concluded until the latter part of next week.

HUSBAND BRANDON AS WRECKER OF HOMES

Abe Richman was nominated yesterday as an all-around general home-wrecker, by his wife, Bessie Richmond. First, Mrs. Richman told the court that she and her husband tore down the shades and smashed the furniture in their home. Then she said he went out and spent \$300 for clothes for another woman, which caused a general wreck of the marital furniture. Judge Gates granted Mrs. Richman a decree of divorce.

WIDENING CONSIDERED

The City Council has under consideration the widening of the north roadway of Santa Monica Boulevard from Beverly Hills to Veteran avenue to a uniform width of eighty-three feet.

MAID O'CLOVER IS Good BUTTER

The cream comes from cows pastured on green mountain meadows and is churned by experts.

IT WOULD BE DANGEROUS

No. R. only as qualified, experienced, regular physician could you get into any institution to practice any treatment you think would be good for cancer, or any other condition.

The remedy, it seems to me, is simple in your case.

Eat more, or decrease your activities somewhat. I suggest that you learn to like a fairly good breakfast. You can do it. Gradually work up a good breakfast. Eat more, try to increase your calories, all the time. Have a big cupful of oatmeal or other cereal (about 150 C.) with a glass of milk (100 C.) some cream for your oatmeal, or some top milk (crème fraîche), or one cup of cold, one-half teaspoonful 100 C. thin cream, 18 per cent, (ordinary cream) is less than two ounces to the 100 C. some whole-wheat bread and butter, toasted. If like, one slice of bread, one-half inch wide, 100 C. one level tablespoonful of butter, 100 C. some fruit (one orange, 100 C.; one-half grapefruit, 100 C.; one apple, 100 C.) Whether you would need eggs or other protein depends upon the amount of protein you have in other meals.

But you can see that by eating some breakfast you can add to your calories 400 to 500, or more, every day. You might have a glass of milk before going to bed, too. That's another 150 C.

The fact that you are well indicates

## SHAW IN FIGHT AGAINST EXTRAS

Attempts to Save Property Owners Large Sum

Efforts Meet Antagonism of Dunn and Delorey

West Adams Drain Cited as Glaring Example

City Engineer Shaw, supported by Public Works Commissioners Eridrid and McGuire, yesterday went into action to save the property owners from excessive charges for "extras" in public improvement contracts, and the City Engineer urged the Board of Public Works to take steps to prevent excessive "extras" on the \$2,324,000 West Jefferson-street storm drain.

Due to the antagonistic attitude of Commissioners Dunn and Delorey, City Engineer Shaw's recommendations were not adopted, and Commissioner Dunn indicated that on the return of Commissioner H. H. Hart there would be three votes—Dunn, Delorey and Hart—no stamp on the City Engineer or anyone else who might oppose the "administrative" program.

"We've had so much trouble about these extras on the West Adams storm drain," said Commissioner Dunn. "That I want all members of the board present before we take action on the West Jefferson-street drain, where it is apparent there will be extras."

**EXTRAS DOUBLE COST**  
The West Adams storm drain was built by Peter R. Gaddi, who is the same contractor who is building the West Jefferson-street storm drain. Gaddi's contract price for the West Adams storm drain was \$2,000,000, while the bill arrived at the City Hall for \$2,324,076 for extras, making the total cost of the storm drain \$688,145. The City Council will hold a public hearing on next Monday to determine the cost of \$20 to pay Gaddi's West Adams bill.

The question of allowing extras on Contractor Gaddi's West Jefferson storm drain job came before Board of Public Works yesterday in a report from City Engineer Shaw, declaring that soil conditions made necessary \$11,000 in extras for piles on which the storm drain will be built, and that the piles will be included in the \$2,000,000 \$11,000 job under the City Engineer's report. It is apparent from conditions disclosed by the excavation that a satisfactory foundation can be obtained without the use of piles or rock anchors, and without the use of the sub drain. It is being possible to carry the small amount of drainage alongside the trench.

**HORN'S RETURN AWAITED**  
City Engineer's efforts to establish a policy that would result in eliminating unnecessary work on the West Jefferson-street storm drain and thus reducing the cost of the drain, which the contractor would present, were supported by President McGuire and Commissioners Eridrid, but Commissioner Dunn insisted that no action be taken until Commissioner Horn returned. This will give three votes or a majority for whatever Commissioners Dunn, as representing the Farrel-Cayer administration, desire to put through the board and over the property owners.

## BUSINESS OF TODAY HAS NEW FORCE

Era Changes Spirit of Dealings, Says R. E. Bright  
Spirit of Dealings

"The service luncheon club is one of the most vital forces in modern business," declared Reynold E. Bright in an address before the Altruistic Club yesterday noon. "It is revolutionizing the spirit of business. The old spirit of cut-throat competition and unscrupulous rivalry is giving place to a new idea of service and co-operation. Truthfulness in advertising, honor in business dealings, a fair return for money received, and co-operation for the common good are the common objectives."

"Babbitt" is fair game for a certain type of magazine writer who prides himself on belonging to the intelligent, but after you have made all the fun of him, you will be sure to admit that the confection richness and efficiency of our modern life are due to the ridiculous Mr. Babbitt."

"Last month 2,500 young people graduated from high school across the country. This month, 22,000,000 library is being opened. Thousands of people will listen to symphony concerts under the stars. Who gives the people the pleasure? Who gives the people the leisure and the education whereby they may enjoy these things? Babbitt! The captain of finance and industry."

## Two Bondsman in Drug Cases Under Inquiry

Department of Justice agents yesterday began an investigation of two bonds given in narcotics cases, United States Commissioner Head announced. In one case they are searching for Harry Weber, bondsman for Ramon Cruz, who was released in \$5000 bail April 15, 1925, and is now at large, according to Commissioner Head. Weber's address as given on the bond proved fictitious and the agents have been unable to find him. The other surety for Cruz is not under suspicion.

The other case is that of the bond of Frank E. Edwards, which, however, has since been discharged by Edwards' indictment and the giving of other bail. Commissioner Head did not say what irregularity is suspected.

## EX-ILLINOISAN TO PICNIC

The seventeenth annual reunion of the Illinois Association of Southerners, California, will be held in Echo Park the 17th inst. from 2 to 7 p.m. All former residents and tourists are invited to be present. Picnic dinner at 4:30.

## INJURIOUS NEWS BAN DISCUSSED

Community Should Prevent Things Making Unfavorable Publicity, Expert Says

The publication of news unfavorable to a community was discussed by Frederick M. Snyder, foreign correspondent and special commissioner for the Press Congress of the World, who addressed 400 members of the Los Angeles Rotary Club at a luncheon at the Biltmore yesterday.

Mr. Snyder appeared before the Rotarians as a representative of the editors of the National Editorial Association, here for their annual convention.

The business of a newspaper is to print the news, Mr. Snyder pointed out, and then called attention to the fact that if through community-wide co-operation there could be brought about the prevention of any measure of that kind, the newspaper would not be forced to print such news. He cited, for instance, the case of the United States, where a news item said that China will have very disastrous fires. If steps were taken on a co-operative basis to prevent fire, the newspapers would not be forced to devote so much space to the subject.

Twisting upon the common criticism that the newspapers devote more space to the publication of crime news than any other type, Mr. Snyder laughingly remarked that every newspaper is compelled to have a competent critic of newspapers.

He added that with crime as the rampart of the country, naturally the news of it takes space in the newspaper.

**GOODCELL INDORSED**

Custodian Service Association Gives Candidate Backing

Among others who have been endorsed for public office by the Federal Custodian Service Association of the port of San Francisco, is Judge Rex E. Goodcell for the Republican nomination for Governor, according to reports from the north received in this city. T. Sullivan is president of the Custodian, and Harry L. Walker secretary.

Judge Goodcell, who has been campaigning in the north, arrived in Los Angeles yesterday enthusiastic as to the reception he would receive when he arrived in the northern part of the State. The Santa Rosa Lions Club sponsored one of the large meetings of the city's business and newspaper men, all the other service clubs and the chamber of commerce, the candidate who was given a rousing reception, reports state. Meetings in Healdsburg, Petaluma and San Rafael also were addressed.

## ASK HAUSER PAVING

The opening and extending of Hauser Boulevard to a uniform width of nine feet from Washington street to Adams street, and the paving of the boulevard with 7-inch concrete pavers, asked of the City Council yesterday by property owners. The roadway as proposed will be forty feet in width.

## PROTESTS DENIED

Protests against the improvement of Hollywood Boulevard from Ogden Drive to Laurel Canyon Road have been denied by the City Council.

## SCHOOL HEAD EXONERATED

Board Dismisses Charges of Immoral Conduct Brought by Teacher Against Principal

Charges of immoral conduct made against Robert B. Emery, 86-year-old principal of the Ninth-street school, by Lois S. Sexton, 45-year-old former teacher, were dismissed by the Board of Education last night after a two-day trial. In exonerating Mr. Emery the board reported insufficient evidence.

In a special finding the board exonerated Miss Festa Wimberly, whose name had been brought into the case, of any implication of improper conduct.

A final defense witness, Mrs. Sexton, was dismissed by the court.

A motion that the case be dismissed on the grounds that Miss Sexton was not a competent witness because of her mental condition was taken under advisement by President Odell and the other members of the board.

## DENIES FAMILIARITY

Miss Wimberly also testified and declared that Mr. Emery had never shown any undue familiarity toward her and that he had always conducted himself in a gentlemanly manner.

Isabella Silverthorne, another witness, testified that she had entered the principal's office on the phone one day and saw Miss Sexton with her arms wound tightly about the neck of Mr. Emery and the latter seeking to escape from the embrace.

Miss Silverthorne, another witness, testified that she had entered the principal's office on the phone one day and saw Miss Sexton with her arms wound tightly about the neck of Mr. Emery and the latter seeking to escape from the embrace.

According to Detective Lieutenant Perry of the Sawtelle division, Wilder, posing as a friend of a prominent club member, first entered the locker room of the Los Angeles County Fair, where he met Miss Sexton, with her arms wound tightly about the neck of Mr. Emery and the latter seeking to escape from the embrace.

Wilder is said to have taken \$400 in cash and jewelry valued at several thousand dollars.

## STONIER TO RESUME DUTIES HERE TODAY

Returning to Los Angeles today Harold J. Stonier, president of the Los Angeles Advertising Club, will resume his duties as executive secretary of the University of Southern California, after a month's sojourn in the East where he attended the International Convention of Advertising Clubs in Philadelphia coming back to the Pacific Coast in time to attend the convention held this week in San Francisco of the Pacific Coast Advertising Clubs Association.

The case closed with Mr. Emery's testimony, when arguments by coun-

## Court Approves Appraisal in Street-Widening Suit

Property on Flower Set at \$12,000 Per Foot

Damages Will Go to Holder of Long-Time Lease

An indication of the rise in the value of downtown business property was given yesterday in Superior Court when Judge Craig approved an appraisal of \$12,000 a front foot for five feet of property facing on Seventh street and extending south on Flower street to the alley between Seventh and Eighth streets.

The appraisal was made by a board of referees selected to fix the amount to be paid by the city and an assessment district for the widening of Flower street between Seventh and Eighth streets for a distance of five feet on each side of the present limits of the street.

The five-foot strip which was appraised at \$12,000 a front foot is adjacent to the site of Barker Brothers and is part of the property owned by the lessor of the Sun Realty Company. The property is owned by Mary C. Young and Mary Young Moore, who were allowed \$1 as nominal damages, the balance of the award according to the Sun Realty Company.

The realty company had objected to the price fixed by the referees and asserted the strip was worth \$14,500 a foot, but Judge Craig decided to affirm the report of the referees.

Total damages were to be compensated for widening Flower street between Seventh and Eighth streets was fixed at approximately \$318,000, the cost of which will be borne largely by the assessment district. Recently the city filed a suit in court action designed to pave the way for the widening of the street from Eighth street to Washington Boulevard.

This action will come before the court later.

At his son's home at 2657 Magnolia avenue last night, the father admitted that not only was he delighted to see his boy but also that California ranked very high in his estimation, an admission, he said, that should be considered a high compliment from a resident of Florida.

At his son's home at 2657 Magnolia avenue last night, the father admitted that not only was he delighted to see his boy but also that California ranked very high in his estimation, an admission, he said, that should be considered a high compliment from a resident of Florida.
